SOUND ATTENUATED ENCLOSURES

26-165 kVA, 50 Hz

34-165 kVA, 60 Hz

The fully weatherproof Sound Attenuated (SA) enclosures reduce sound levels to a level that is lower than European Community regulations.

The enclosures incorporate internally mounted exhaust silencers and are of extremely rugged construction to withstand the rough handling common on many construction sites. They are designed on modular principles with many interchangeable components permitting on-site repair.
