

PR2000

PR Power Mobile Lighting Tower

Powerful Metal Halide Lights

Handles for easy movement

4x Stabiliser legs & 2x Pneumatic tyres

KEY FEATURES & BENEFITS

- Designed to be linked/connected in a series for maximum light output
- Up to four (4) PR2000's can be linked together for added light output
- 2,100m² illuminated area for maximum visibility
- Ability to be powered from mains power or generating set
- Handles and wheels for easy manouverability and light adjustment
- Compact and space minimising
- Weather proof enclosure
- Lockable control panel for added security
- Forklift pockets and central lifting point for easy transport
- Individual light control and circuit breakers for added safety
- Certified wind stability to 80km/h

PR2000 MOBILE LIGHTING TOWER

The PR Power range of mobile lighting towers are designed and manufactured with a high level of precision and quality.

The PR2000 produces maximum visibility and performance for continuous night work in a wide range of applications including events, rental, construction and civil works.

The PR2000 is designed to be linked/connected in a series (up to 4x PR2000 units) for maximum light output, reduced space requirements and improved mobility.

This unique configuration makes the PR2000 ideal for noise sensitive areas and also eliminates environmentally hazardous engine exhaust fumes.

The light weight and compact design of the PR2000, enables it to be moved into position with minimal effort.

In addition to the PR2000, PR Power also provides a range of lighting tower configurations for sale or hire for applications, such as mining and civil works.

For more information on our range of mobile lighting towers and other equipment contact our office today on **1300 399 499** or visit our website at **www.prpower.com**.

TECHNICAL DATA

SPECIFICATIONS

Light output	2x 1000w
Type of light	Metal Halide
Maximum mast height	7m
Mast lifting system	Electric
Colour	White
Power Source	Mains power or generator
Stabilisers	4x manual wind down
Tyres	2x pneumatic tyres
Dimensions (Mast fully retracted)	1200 x 800 x 2330mm
Weight	244kg

Up to 4 Towers Linked To 1 Power Source
